In the dimly lit corner of a rundown coffee house that clung to the fringes of Washington Square, young Allen Ginsberg leaned closer, his voice barely rising above the murmur of scattered conversations and the clinking of mismatched cups.

As we indulged in the peculiar ritual of freebasing Red Curry Pancake Paste, a bizarre concoction that seemed to blend the culinary with the surreal, he cast a contemplative gaze around the room, his eyes reflecting a mix of mischief and melancholy.

"All of the saints are dead, they are all gone," he murmured, his tone laced with an almost reverent sadness, "but who was left to pay their final bills?" The question hung in the air, heavy with the weight of existential inquiry, as Jan and Denny exchanged glances, caught between laughter and the profound realization that perhaps the remnants of those once revered figures lingered in the shadows, their legacies overshadowed by the mundane realities of life.

In that fleeting moment, I dismissed the sensation, attributing it to the fiery kick of the Red Curry Paste I had indulged in earlier. It wasn't until much later, during a 3 AM pilgrimage to the bathroom—located down the hall from our windowless flat at the Greenwich Hotel—that the weight of Little Allen's profound question truly settled in. As I sat there, enveloped in the chill of the porcelain seat, my mind drifted into a contemplative haze, grappling with the depth of his inquiry.

The stark silence of the early morning wrapped around me, amplifying my thoughts as I pondered the significance of his words, which now echoed in my mind with an intensity that was both startling and enlightening.

Who, one might wonder, would take on the responsibility of settling the financial obligations left in the wake of the saints? In an era steeped in spiritual fervor and miraculous deeds, did these revered figures enlist the help of aides to manage their monetary affairs, or did they perhaps

appoint a trusted agent to oversee their finances while they traversed the rugged landscapes, spreading their messages from one gathering to the next?

It is intriguing to consider the logistics of their journeys; as they moved from town to town, preaching and performing acts of kindness, the practicalities of life—such as paying for food, shelter, and other necessities—would have required some form of financial oversight.

The saints, dedicated to their divine

missions, may have relied on a network of supporters or disciples who understood the importance of ensuring that their material needs were met, allowing them to focus entirely on their spiritual endeavors without the distraction of earthly concerns.
In my opinion, which may be influenced by a touch of hopeful imagination, it seems to me that they were rather insincere in their actions, moving stealthily while carelessly invoking the name of Jesus, reminiscent of a disheveled EE Cummings stumbling out of a three-day bender, desperately seeking a

refuge to rest his weary head.
Their demeanor struck me as cheap and opportunistic, as if they were using the sacred name as a mere prop in their aimless wanderings, lacking the reverence that such a name deserves.
The juxtaposition of their casual approach with the profound significance of the name they tossed around felt jarring, creating an unsettling image of individuals who, much like a poet lost in the haze of intoxication, were searching for solace but failing to grasp the depth of what they were invoking.

I find myself drawn to the notion that this carefree, almost reckless attitude—what I like to call "cheap creeping"—was a hallmark of some of the more dubious, low-rent saints.

This perspective offers a certain comfort, as it suggests that I might share a trait with these figures, however tarnished my reputation may be.

The idea that even those who walk a shadowy path can embody a sense of freedom and audacity resonates with me, creating a connection that feels both

rebellious and oddly reassuring.
It implies that beneath the surface of their questionable choices lies a spirit of adventure, a willingness to embrace life's uncertainties, which I can't help but admire.
The figures that come to mind from my recollections of Sunday School are those of rigid, conservative men, often adorned with bowties, who seemed perpetually caught in a whirlwind of travel.
These individuals, with their stern expressions and unyielding demeanor, were always in route to yet another speaking

engagement or religious event, their lives a blur of hotel rooms and church halls.
It felt as though their relentless journey was not merely a quest to spread the tenets of their faith, but rather an escape from the relentless pressures of a society that mirrored the modern-day bill collectors—those relentless pursuers who, like demonic hounds from the depths of despair, nipped at the heels of the faithful.
The sorrowful wails of bill collectors, proclaiming "Past Due Account!" reverberated through the air, creating an

almost ghostly atmosphere that lingered like a specter.

This relentless refrain served as a poignant reminder of the weighty burdens that undoubtedly pressed down on the shoulders of many of these sainted individuals, those who, despite their unwavering faith, found themselves grappling with the stark realities of life.

In their quest for solace within the comforting embrace of their beliefs, they often sought to escape the unforgiving demands of the outside world, where

unpaid bills loomed like dark clouds, threatening to overshadow their moments of peace and reflection.
The juxtaposition of spiritual refuge and financial distress painted a vivid picture of the human experience, where hope and hardship intertwined in a delicate dance, leaving many to navigate the tumultuous waters of faith amid the relentless tide of obligation.
The weight of their suffering resonates deeply within me, as I find myself entangled in a web of my own tribulations that mirror

theirs in unsettling ways.
My grumpy, old landlady, a figure cloaked in menace, has made it abundantly clear that unless I can conjure up last month's rent, she will unleash her gang-affiliated, ex-con nephews upon me, threatening to unceremoniously toss both me and my beloved Remington Noiseless typewriter out onto the unforgiving streets.
And, don't get me started on the other gangsters down at Ma Bell who pulled my phone line even though those boys down at the FBI had an illegal wiretap on my phone

after I said I was going to vote for Dick Gregory for president - as he needed the gig more than IKE and I may have made mention that he would do a better job than the small-town crook, Mister Nixon.
It's hard to say whether Little Allen and his buddy will be open to the idea of us crashing at their place for a while.
However, I have a feeling that once they see the potential in my latest collection of doodles, they might just roll out the welcome mat.
I can already envision the excitement as

these creations gain traction and start to make waves in the art scene.
The thought of all that success is exhilarating, and I can't help but plan ahead, imagining myself burying the spoils of my newfound fortune in the backyard of that quirky Guru Wanda's house, a secret stash hidden away from prying eyes.
The thrill of it all is almost palpable, as I dream of the day when my doodles will be celebrated, and I'll have the means to secure my future.

Why conceal it as if it were a magnificent treasure waiting to be unearthed, reminiscent of a pirate's hidden bounty? If the saints were still present in our midst, one can easily imagine them eagerly seizing a shovel, ready to excavate their own secret stash, much like the legendary Saint Douglas once advised, *"It's wiser to bury your savings than to place your trust in the banks, especially if you recall the tumultuous 1930s"* or in this case, let those hound dog, bill collectors feast and dine on my hard earned savings down at McSorley's Bar.
